

CERTIFICATE

OF PARTICIPATION

THIS CERTIFICATE IS AWARDED TO

Sakhile Laba

Epoxy Brothers issues this certificate as proof of attendance and successful completion of a comprehensive training course covering both the theoretical and practical components of epoxy application.

The course provided in-depth instruction on best practices, protocols, and techniques for installing epoxy coating systems on concrete, stone, and Formica substrates. Participants completed the theoretical section, ensuring a strong understanding of the science, safety standards, and methodology behind epoxy applications.

In addition, they engaged in hands-on practical training sessions, with a specific focus on the successful project delivery of epoxy coatings as flooring systems and on kitchen countertop overlays.
